

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

Wedgewood Village Pharmacy is conducting a recall of a non-sterile compounded veterinary transdermal preparations (Twist-a Dose). See list below. Recipients of these preparations are in the process of being notified of the recall, pursuant to policies of the pharmacy. The preparations were compounded exclusively for the use in animals.

During a routine visual quality inspection, a pharmacist noted a physical deviation on a Twist-a-Dose transdermal preparation. While not all units from these batches may be affected, and the observed deviation was present in only a very small number of units, Wedgewood Pharmacy is recalling in date lots of hand-filled aqueous base Twist-a-Dose preparations out of an abundance of caution as part of the continued commitment to ensuring the highest level of care.
