

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

Dr. Reddy's Laboratories is recalling:

Lansoprazole Delayed-Release ODT

This recall is being initiated due to out-of-specification results observed in dissolution test in lot # T2100514 of Lansoprazole Delayed Release ODT during long term stability testing. Additionally, the lot#T2100515 is also being recalled as a precautionary measure as it was manufactured from the same common blend as of the OOS lot#T2100514. Refer to the product lots to be recalled in the table below.

Product Name	Lot Number	Expiration Date	NDC Number
Lansoprazole Delayed Release Orally Disintegrating tablets, 15mg, 10 x 10 blister count	T2100514	01/2023	43598-560-78
Lansoprazole Delayed Release Orally Disintegrating tablets, 30mg, 10 x 10 blister count	T2100515	01/2023	43598-561-78

Risk Assessment: Due to higher dissolution results, the therapeutic concentration of the drug may fluctuate marginally during the day. However, it may not alter the therapeutic benefit and is unlikely to cause any serious adverse effects to the patients consuming the subject lot T2100514 and other impacted lot T2100515.

The product distribution dates: March 26, 2021 – September 8, 2021.
