

The Board of Pharmacy has received notice of the following product withdrawal:

SterRx LLC has issued a market withdrawal for the following products:

Product	Lot Number	Expiration Date	NDC Number	Distribution Dates
16 mg Norepinephrine in 5% Dextrose Injection, 250 ml	ASF	11 May 20	70324-002- 01	13 Jan 20 - 27 Jan 20

This market withdrawal is being made with the knowledge of the Food and Drug Administration and has been initiated due to the trending of product potency detected during testing of stability samples for the products and lot listed above. The potency has not yet tested out-of-specification; however the potency is projected to be out-of-specification before the 180 expiration date of the product. A decreased potency has the potential to decrease effectiveness of the product in patients. To date, SterRx LLC has not received reports of any adverse events associated with this product.

The Board of Pharmacy strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.
